Labor Law Compliance

Case Study

An associate deputed to a leading MNC had a critical congenital heart condition, which surfaced only during his tenure at their Hubli office. Compounding the physical condition were certain documentation errors committed by his previous employer that affected his claims.

When he became a TalentPro associate, our professionals helped him in documentation and co-coordinating with the department. TalentPro worked round the clock coordinating with department officials across, Hubli, Dharward, Belgaum and Bangalore. Despite local disturbances during the fag end of 2009 in Bangalore, that would have otherwise delayed response to associate, TalentPro's Compliance professionals made sure that all documentation pertaining to the employee was in order, in less than 4 days' time.

The employee, his family and all the officers at the client were thankful when ESI provided full cover towards cardiac surgery.

Result – TalentPro's professionalism appreciated.
